BAT PUBLICATIONS AND WORKS

Some of the work we have done within the Turkish Preppers Community is listed below. They are offered to the benefit of people from our own circle who are seriously interested in the subject of preparation. Basically and briefly, we have prepared or are preparing these for ourselves. Since it is our area of special interest, we already carry out such studies routinely. If we find suitable publishing houses, we print some of them and make them available to the general public. You can buy our publications from the sales points of publishing houses.

These publications and studies are "private" and have been prepared "with great effort" and are not open to the public. It is at our discretion who we give the publications to and who we invite to the OBA organization. These works cannot be measured in financial terms. That's why we prefer to provide these to the people we want. You can request it duly. However, your request does not mean that we will provide them to you. We provide these opportunities to some sane, faithful and diligent people of our nation. We are not saviors. We have stated many times that we have never made such a claim. We are just people trying to take precautions in chaotic times. You can also prepare by doing your own research and studies.

We cannot be friends with people who do not have our understanding of faith and science, who do not have a proper style, who do not support our work and efforts, who do not try to establish friendship bonds, who do not have knowledge and effort in Preparation, and who are confused. We do not force anyone to do anything and we do not give unnecessary advice.

Preparatory work entails certain expenses. In other words, camping equipment, tools, etc. that you will buy for yourself. It will happen. However, we only organize reunions for the tribes, we do not establish facilities or transport people to certain places. We open a way for you to protect your life and your loved ones. It's up to you to go that route or not. How you go, what you do when you go, how you establish your unity is up to you. We convey the basic protocols and methods to you in the relevant files. Afterwards, you will establish your management with the people you will cooperate with and distribute the tasks.

Even people who build and sell shelters now admit that "we made a mistake, the places we built shelters will disappear." We did our work by considering not only the next 1-2 stages, but also the next 5 stages and various possibilities. We offered people the "most sustainable and rational" methods and information. There will not be a better Apocalypse (Divine Great Destruction) Protection Event than ours in the coming years. We planned it by modernizing the method that our ancestors continued for tens of thousands of years. Precautions and preparation are from us, discretion is from Allah. We are trying to show that we are a good person, a good Muslim and a good Turk by fulfilling our responsibility.

Not all of the work has been completed. First of all, you can contact us and ask whether our work has been completed. More than 80% of the work has been completed by the beginning of February 2024. When we have additional work, we will add it to the list. When there is a personal request for unfinished work, priority can be given and the work can be completed within 3 to 7 days. Once your preliminary application is evaluated, we will determine whether to make you a Prepper.

1. This form <https://forms.wix.com/f/7154895735845027871> fill in and start
2. Contact us on Telegram that day between 20:30 and 22:30, UTC +3 Istanbul Time: <https://t.me/adembaba22kzlok>
3. Those at home and abroad will definitely make voice phone calls with Telegram

If you do not communicate via Telegram or make a phone call, you cannot receive information. Make your calls without wasting time. Do not spread communication over days or weeks. The longer you prolong communication, the less we lose our desire to give you information. The privileges we could provide for you will thus be lost.

The main categories of our work are as follows:

1. Disaster and Disaster Risk Analysis
2. Disaster and Disaster Preparedness Information
3. Personal Disaster and Disaster Preparedness Plans
4. City Disaster and Disaster Preparedness Plans
5. City Safe Area Determinations and Mapping
6. Location Based Safe Area Detection
7. Disaster Camp and Union Organizations (Obas)
8. Tariq/Nibiru Star Research

Our publication and organization activities:

Being aware that we are human beings and servants, we have not done anything and will not do anything by promising people things that do not exist. We provide you with information that may be useful in chaotic and challenging disasters and catastrophes. What you do with these is up to you. Consider these as "information" and determine your own research, plans, and orientations. We take care in our work because we do not provide these to people we do not consider as preparers and friends, and we try to find comrades.

APPEAL PREPARER NEEDS

Information and maps, which are the most basic and essential needs, must be obtained. When chaotic disasters strike, you must know what to do, how to do it, and where to go. You must have a Personal Disaster Action Plan. Turks both from Turkey and abroad should definitely make this preparation. Both groups of people should acquire what we have stated here.

- Liberation Guide Book - What You Consider Important from Single E-Books - What You Consider Important from Document Folders - Types of Disasters and Self-Protection Ways E-Booklets
- City Flooding Map Set for Coastal Cities - City Rescue Guide for Coastal Cities E-Book

QUALIFIED PREPPER NEEDS

For the more forward-thinking and cautious, there should be some things in addition to the Novice Prepper Requirements.

- Map Set for Coastal Cities and Dangerous Area - Disaster Camp / Oba Participation for Those in Turkey (Choose Someone Suitable for You) - Disaster Camp / Oba Participation in Their Own Country or Nearby for Those Abroad (Choose Someone Suitable for You)

NEEDS OF PROFESSIONALLY THINKING PREPARERS

In order to take the highest level of precaution, there must be some more things in addition to the Qualified Prepper Requirements.

- Coastal Cities and Hazardous Area Disaster Camp / Oba Participation - Gökoba Disaster Camp Participation

These are personal and private studies and organizations. There is no monetary equivalent. If you want to buy it from somewhere else, you won't be able to find it, if you find it, you won't be able to raise money (you have to pay 50-60000 dollars for a passive report), and even if you are in a position to buy it, they won't give you information. So please do not engage in unnecessary polemics with us. We carry out our own studies by addressing scientific and religious issues. We do not conduct studies open to the whole world. You can also do your own work. We are not in a position to publicly reveal to the world the work we have been doing day and night for 3 years. Respect for labor is essential. We are people who work on a voluntary basis, these are not jobs that can be done overtime.

We have the right to change any information we want in any way we want. We don't make any promises to anyone. We do not promise anything to anyone. The thoughts that people form in their minds bind them. Anything put forward or evaluated in a personal context without consulting us is binding on that person.

We thank you.
